Efficient Electrical End-Use Equipment
International Energy Agency

“SAVING MORE ENERGY THROUGH COMPLIANCE”

INTERNATIONAL CONFERENCE
ON COMPLIANCE IN ENERGY
EFFICIENCY PROGRAMMES
FOR ELECTRICAL EQUIPMENT

14-16 SEPTEMBER 2010
COPTHORNE TARA HOTEL
LONDON, UK

ORGANISED BY THE
INTERNATIONAL ENERGY AGENCY
IMPLEMENTING AGREEMENT
FOR EFFICIENT END-USE
ELECTRICAL EQUIPMENT (4E)

IN PARTNERSHIP WITH THE
COLLABORATIVE LABELING AND
APPLIANCE STANDARDS PROGRAM
(CLASP) AND THE UK GOVERNMENT

SPACE IS
STRICTLY LIMITED!
RESERVE A
PLACE EARLY AT
[HTTP://WWW.IEA-4E.ORG/LONDON](http://www.iea-4e.org/london)

Effective compliance regimes are needed to ensure efficiency programmes continue to deliver energy and greenhouse gas savings at low cost.

High compliance rates also safeguard these programmes from losing the confidence of consumers and industry.

Compliance is therefore a major concern to all market participants who have an interest in maximising energy efficiency.

This international three day Conference will bring together public and private sector stakeholders to share experiences in the design and operation of their compliance activities.

REGISTRATION

There is no charge for attending the conference however space is strictly limited and we encourage you to reserve a place early by completing the booking form at the 4E website:
<http://www.iea-4e.org/london>.

Tell us if you would like to make a presentation by registering at this website.

AMONGST THE TOPICS RAISED:

- ▶ Why are compliance rates important?
- ▶ How can high compliance rates be achieved cost-effectively?
- ▶ When to take remedial or enforcement action?
- ▶ Should compliance regimes differ between voluntary and mandatory programs?
- ▶ Can we learn from other compliance regimes, such as electrical safety?
- ▶ How do compliance regimes for manufacturing economies differ from those with a high proportion of imported products?
- ▶ How can modern approaches to Information Management contribute to effective low cost compliance?
- ▶ How can international co-operation improve compliance?

WHO SHOULD ATTEND

- ▶ Officials responsible for the design and operation of energy efficiency programmes;
- ▶ Representatives from industries involved in the manufacture, supply and retail of electricity using products;
- ▶ Policy-makers from the public and NGO sectors specialising in energy and greenhouse gas topics;
- ▶ Regulatory affairs officers;
- ▶ Consultants and private sector companies in the fields of monitoring, verification and evaluation;
- ▶ Representatives from verification and certification companies.
